

Product information

Weller®

SPI 16

Code No. : T0056400599N

Unregulated Main Iron

Line Voltage Soldering Iron 15 W, 230 V, Unregulated

Robust heating elements of special steel between natural mica-leaves, embedded in cast ceramics and first-class material make the Weller SPI irons outstanding in technology and life-time. The SPI irons come with plated and oxidation prevented Weller "Longlife" tips.

Technical Data

| | |
|----------------------|----------|
| Voltage: | 230 V AC |
| Power: | 15 W |
| Heat-up time: | ca. 180s |
| Temperature: | 360°C |
| Tip type: | SPI |
